it is decent to abuse me for not doing something which not one solitary man from Wichita ever asked me to do?

We have learned a good deal since the winter of 1888. Then we were hopeful of being on the treshold of the hardest times I have ever seen; and if these men who now go about calling me hard names, and, as I am told, even distributing hand bills around the streets denouncing me, had sent me up a single petition on this subject, it would have received the most conscientious consideration I could have given it. Should not they denounce themps always alive to the wants of the people; and this year the Republicans of Sedgwick county have adopted a plaiform who contains these two planks: "We favor an anendment to the mortgage law forbidding waiver of appraisement, securing to the mortgagors a liberal right of redemption after sale, and confining to the mortgagors a liberal right of redemption after sale, and confining the lender of money exclusively to his real to rand representatives accordingly.

"We are in favor of the enactment by the next legislature of a law authorizing to the mortgagors a liberal right of redemption after sale, and confining to the mortgagors a liberal right of redemption after sale, and confining the lender of money exclusively to his real to rand representatives accordingly.

"We are in favor of the enactment by the next legislature of a law authorizing dudgment debtors to stay execution on all judgments rendered in the district court of the state for a reasonable length of times and under such limitations that will benefit the debtor class and will not impair the rights of the creditors."

It is decent to do?

We are in favor of the state for a presentative accordingly.

We are in favor of the enactment by the next legislature of a law authorizing destate security, and we instruct our senator and representatives accordingly.

All I ask is that when you come to cast your vote on Tuesday next I may be judgment debtors to stay execution on all judgments in forclosure.

All I ask is tha
